USER STORIES — DETAILED SPECIFICATIONS

OC-REG-US-001

Successful Account Registration

*As a **new visitor**, I want to complete the Register Account form with valid data and accept the Privacy Policy, so that I can create an account and access the platform.*

AC ID	ACCEPTANCE CRITERIA
AC-01	Given I am on the Register Account page and I have entered valid data in all required fields and checked the Privacy Policy, When I click Continue, Then my account should be created successfully and I should be redirected to my account page.
AC-02	Given I am on the Register Account page And all required fields are empty And I have not accepted the Privacy Policy When I click Continue Then the form should not be submitted And I should see a warning message "Warning: You must agree to the Privacy Policy!" And I should see validation messages for all required fields

OC-REG-US-002

First Name & Last Name Validation

*As a **new visitor**, I want to enter my first and last name in the Your Personal Details section, so that my identity is correctly captured on the platform.*

AC ID	ACCEPTANCE CRITERIA
AC-01	Given I have entered an alphabetic-only name between 1 and 32 characters in the First Name or Last Name field, When I click Continue, Then the field should be accepted and registration should proceed.
AC-02	Given I have left the First Name or Last Name field empty, When I click Continue, Then a validation error should appear on that field and registration should be blocked.
AC-03	Given I have entered numeric characters such as Mohamed123 or special characters such as Mohamed@#\$ in the First Name or Last Name field, When I click Continue, Then the field should be rejected and a validation message should be displayed.
AC-04	Given I have entered a name with leading spaces, trailing spaces, or only whitespace in the First Name or Last Name field, When I click Continue, Then the field should be rejected.

AC ID	ACCEPTANCE CRITERIA
AC-05	<i>Given</i> I have entered a name with less than 1 character or more than 32 characters, <i>When</i> I click Continue, <i>Then</i> the field should be rejected and a validation message should be displayed.

OC-REG-US-003	E-Mail Validation
---------------	-------------------

	<i>As a new visitor, I want to enter a valid and unique email address in the E-Mail field, so that my account has a unique identity on the platform.</i>
---	--

AC ID	ACCEPTANCE CRITERIA
AC-01	<i>Given</i> I have entered a correctly formatted email address that does not already exist in the system, <i>When</i> I click Continue, <i>Then</i> the email should be accepted and registration should proceed.
AC-02	<i>Given</i> I have left the email field empty, <i>When</i> I click Continue, <i>Then</i> a validation error should appear on that field and registration should be blocked.
AC-03	<i>Given</i> I have entered an email missing the @ symbol, or missing the domain, or missing the username, or containing disallowed characters such as #, <i>When</i> I click Continue, <i>Then</i> the field should be rejected and a format validation error should be displayed.
AC-04	<i>Given</i> I have entered an email with leading or trailing spaces, double consecutive dots, or a missing top-level domain, <i>When</i> I click Continue, <i>Then</i> the field should be rejected.
AC-05	<i>Given</i> I have entered an email shorter than 6 characters or longer than 96 characters, <i>When</i> I click Continue, <i>Then</i> the field should be rejected and a validation error should be displayed.
AC-06	<i>Given</i> the system already has a registered account with the same email address, <i>When</i> I enter that email in any letter casing and click Continue, <i>Then</i> registration should be rejected and a duplication error should be displayed, regardless of letter case.

OC-REG-US-004	Telephone Validation
---------------	----------------------

	<i>As a new visitor, I want to enter a valid phone number in the Telephone field, so that the platform can contact me when needed.</i>
---	--

AC ID	ACCEPTANCE CRITERIA
AC-01	Given I have entered a phone number using digits only with a length between 3 and 32 digits, When I click Continue, Then the field should be accepted.
AC-02	Given I have left the Telephone field empty, When I click Continue, Then a validation error should appear on that field and registration should be blocked.
AC-03	Given I have entered letters, special characters, spaces, or only whitespace in the Telephone field, When I click Continue, Then the field should be rejected and a validation error should be displayed.
AC-04	Given I have entered a phone number shorter than 3 digits or longer than 32 digits, When I click Continue, Then the field should be rejected.
AC-05	Given the system already has a registered account with the same phone number, When I enter that number and click Continue, Then registration should be rejected.

OC-REG-US-005	Password & Password Confirm Validation
---------------	--

*As a **new visitor**, I want to create a secure password in the Your Password section, so that my account is protected from unauthorized access.*

AC ID	ACCEPTANCE CRITERIA
AC-01	Given I have entered a password between 4 and 20 characters and the Password Confirm field contains an identical value, When I click Continue, Then the password should be accepted and registration should proceed.
AC-02	Given either or both of the Password and Password Confirm fields are empty, When I click Continue, Then registration should be rejected and a validation error should appear on the empty field.
AC-03	Given the Password and Password Confirm fields contain different values, When I click Continue, Then registration should be rejected and a mismatch error should be displayed.
AC-04	Given the Password and Password Confirm fields differ only in letter casing such as TEST123 versus test123, When I click Continue, Then they should be treated as non-matching and registration should be rejected.
AC-05	Given a password contains leading spaces, trailing spaces, or only whitespace, When I click Continue, Then the field should be rejected.
AC-06	Given I have entered a password shorter than 4 characters or longer than 20 characters, When I click Continue, Then the field should be rejected and a validation error should be displayed.

OC-REG-US-006

Newsletter Subscription

*As a **new visitor**, I want to choose my newsletter preference in the Newsletter section, so that I control the marketing updates I receive after registration.*

AC ID	ACCEPTANCE CRITERIA
AC-01	Given I am on the Register Account page, When the Newsletter section loads, Then both Yes and No options should be visible, only one should be selectable at a time, and No should be selected by default.
AC-02	Given I select Yes and then select No, When I observe the Newsletter section, Then Yes should be automatically deselected and only No should remain active.
AC-03	Given I have selected Yes and completed registration successfully, When I navigate to my account newsletter settings, Then the stored preference should be Yes.
AC-04	Given I have completed registration without changing the default Newsletter selection, When I navigate to my account newsletter settings, Then the stored preference should be No.

OC-REG-US-007

Privacy Policy Acceptance

*As a **new visitor**, I want to read and accept the Privacy Policy before submitting the form, so that I have knowledge how my personal data will be used by the platform.*

AC ID	ACCEPTANCE CRITERIA
AC-01	Given I have checked the Privacy Policy checkbox, When I click Continue, Then the form should be submitted and registration should proceed.
AC-02	Given the Privacy Policy checkbox is unchecked, When I click Continue, Then submission should be blocked and a clear error message related to the Privacy Policy should be displayed.

OC-REG-US-008

Registration Response Time

*As a **new visitor**, I want the system to respond quickly after I click Continue, so that I do not experience delays while creating my account.*

AC ID

ACCEPTANCE CRITERIA

AC-01

Given I have filled all fields with valid data and checked the Privacy Policy, **When** I click Continue, **Then** the system should process the request and display a confirmation or redirect within 3 seconds.

OC-REG-US-009

Input Security

*As a **new visitor**, I want the system to respond quickly after I click Continue, so that my data is protected from malicious attacks.*

AC ID

ACCEPTANCE CRITERIA

AC-01

Given I have entered SQL injection patterns into any field on the Register Account page, **When** I click Continue, **Then** the system should reject or sanitize the input, no database error should be exposed, a generic validation message should be shown, and the application should remain stable.

AC-02

Given I have entered XSS payloads such as `<script>alert(1)</script>` into any field, **When** I click Continue, **Then** the input should be sanitized or rejected, no script should execute, no alert popup should appear, and no executable code should be stored.

AC-03

Given I am entering characters into the Password or Password Confirm field, **When** I type any character, **Then** it should appear masked and no plain text should be visible at any point.

OC-REG-US-010

Form Usability

*As a **new visitor**, I want the system to respond quickly after I click Continue, so that I can easily interact with the form without confusion.*

AC ID	ACCEPTANCE CRITERIA
AC-01	<i>Given</i> I have submitted the form with one or more invalid fields, <i>When</i> validation fails, <i>Then</i> a clear and specific error message should appear near the relevant field, describe what is wrong without exposing internal system logic, and use sufficient color contrast to be readable.
AC-02	<i>Given</i> I am on the Register Account page using Chrome or Edge, <i>When</i> the page loads, <i>Then</i> a custom password visibility toggle should be visible next to the Password field, implemented by the application and not dependent on any browser-native password reveal feature.
AC-03	<i>Given</i> I am navigating the Register Account page using keyboard only, <i>When</i> I press Tab, Shift+Tab, or Enter, <i>Then</i> focus should move forward and backward logically through all fields, pressing Enter on the Continue button should submit the form, a visible focus indicator should be present on every interactive element, and no keyboard trap should occur at any point.

OC-REG-US-011	Responsive Design & Browser Compatibility
---------------	---

As a new visitor, I want the Register Account page to display and function correctly on any device or browser, so that I can complete registration regardless of how I access the platform.

AC ID	ACCEPTANCE CRITERIA
AC-01	<i>Given</i> I am accessing the Register Account page on a mobile device with a screen width between 320px and 480px, <i>When</i> the page loads, <i>Then</i> all fields and buttons should be fully visible without horizontal scrolling, the layout should adapt to a single-column structure, all buttons should be tappable, font size should remain readable without zooming, and no UI elements should overlap.
AC-02	<i>Given</i> I am accessing the page on a tablet with a screen width between 768px and 1024px and I rotate the device between portrait and landscape, <i>When</i> the orientation changes, <i>Then</i> the layout should adapt proportionally, spacing between fields should remain consistent, form elements should not stretch disproportionately, and all touch targets should remain accessible.
AC-03	<i>Given</i> I am accessing the Register Account page via Chrome or Edge, <i>When</i> I complete and submit the form, <i>Then</i> all UI elements should render correctly and form validation should behave consistently across both browsers.

DEFINITION OF DONE

✓	All Acceptance Criteria passed
✓	No Critical / High defects Open
✓	Cross-browser compatibility verified
✓	Performance meets SLA
✓	Security checks passed
