

User Story Specification

OpenCart Platform — Product Compare & Category Selection

Module: Product Compare

OC-COMP-US-001 Add to Compare & Success Alert

As a logged-in user, I want to add products to the comparison list and receive a clear success notification so that I know the action was completed.

Acceptance Criteria

AC #	Criteria
AC-01	Given I trigger the 'Compare' action on any product, When the action completes, Then a green success bar is displayed at the top of the page.
AC-02	Given the success alert is visible, When I observe it, Then the exact product name (e.g., HTC Touch HD) is shown inside the alert.
AC-03	Given the success alert is visible, When I click the product name link inside the alert, Then I am redirected to that product's detail page.
AC-04	Given the success alert is visible, When I click the 'product comparison' link in the alert, Then I am redirected to the Product Comparison table.

OC-COMP-US-002 Comparison List Limits & Logic

As a logged-in user, I want the comparison list to enforce a 4-item limit and prevent duplicates so that the list stays manageable and accurate.

Acceptance Criteria

AC #	Criteria
AC-01	Given 4 items are already in the comparison list, When I add a 5th item, Then the 1st item is automatically removed and the list keeps the latest 4 items.
AC-02	Given a 5th item is added, When the list updates, Then a notification is shown confirming the update.
AC-03	Given a product is already in the comparison list, When I click 'Compare' on the same product again, Then the system ignores the duplicate or shows an 'Already added' message.

OC-COMP-US-003 Comparison Page – Product Data Accuracy

As a logged-in user, I want the comparison page to display accurate and complete product information so that I can make an informed purchasing decision.

Acceptance Criteria

AC #	Criteria
AC-01	Given the comparison page is open, When I observe the header row, Then product names (e.g., iMac, iPhone) appear as column headers.
AC-02	Given the comparison page is open, When I observe the 'Price' row, Then prices match the store's actual prices (e.g., \$122.00).
AC-03	Given the comparison page is open, When I observe the 'Availability' row, Then the correct status ('Out Of Stock' or 'Pre-Order') is shown.
AC-04	Given the comparison page is open, When I observe the 'Model' row, Then model IDs (e.g., SAM1, Product 11) are accurately displayed.
AC-05	Given the comparison page is open, When I observe the 'Brand' row, Then the manufacturer name (e.g., Apple) is correctly shown.
AC-06	Given the comparison page is open, When I observe the technical specs rows, Then correct units (kg, cm) are displayed with their values.
AC-07	Given the comparison page is open, When I observe the 'Image' row, Then product images are visible and correctly sized.
AC-08	Given the comparison page is open, When I observe the 'Rating' row, Then star icons and review counts are displayed.
AC-09	Given the comparison page is open, When I observe the 'Summary' row, Then brief descriptions are readable and fit within the cell.

OC-COMP-US-004 Comparison Page – Actions

As a logged-in user, I want to perform actions (add to cart, remove, navigate) directly from the comparison page so that I can manage my shopping efficiently.

Acceptance Criteria

AC #	Criteria
AC-01	Given the comparison page is open, When I click the blue 'Add to Cart' button under a product, Then the product is added to the cart directly from the comparison table.
AC-02	Given the comparison page is open, When I click the red 'Remove' button under a product, Then the item is immediately deleted from the comparison.
AC-03	Given the comparison page is open, When I click a product name or image in the table, Then I am redirected to that product's detail page.

AC-04	Given the comparison page is open, When I click the 'Product Comparison' breadcrumb link at the top, Then the page reloads or stays on the comparison table without errors.
--------------	---

OC-COMP-US-005 Comparison List – Variable Item Count

As a logged-in user, I want the comparison page to handle different numbers of items gracefully so that the layout is always clean and usable.

Acceptance Criteria

AC #	Criteria
AC-01	Given only 2 items are in the comparison list, When I open the comparison page, Then the table adjusts to 2 columns plus feature labels.
AC-02	Given only 1 item is in the comparison list, When I open the comparison page, Then the table displays 1 item with a consistent layout.
AC-03	Given all items are removed from the comparison list, When I view the comparison page, Then the message 'You have not chosen any products to compare.' is displayed.

OC-COMP-US-006 Comparison List – Session Persistence

As a logged-in user, I want the comparison list to persist after a page refresh so that I don't lose my selection.

Acceptance Criteria

AC #	Criteria
AC-01	Given I have items added to the comparison list, When I refresh the page, Then the comparison list remains saved (session is preserved).

OC-COMP-US-007 Comparison Page – UI & Visual Design

As a logged-in user, I want the comparison page to be visually consistent and correctly aligned so that I can read and compare data comfortably.

Acceptance Criteria

AC #	Criteria
AC-01	Given the comparison page is open with 4 products, When I scroll through the rows, Then all horizontal rows stay perfectly aligned across all items.
AC-02	Given the comparison page is open on a mobile device or emulator, When I view the page, Then the table is scrollable or responsive without any broken layout.

AC-03	Given I trigger the 'Compare' action, When I observe the success alert, Then the green checkmark and background color match the site theme.
--------------	---

Module: Category Selection

OC-SCAT-US-001 Sub-category Navigation

As a logged-in user, I want to click on sub-categories from the navigation dropdown so that I can browse products within a specific sub-category.

Acceptance Criteria

AC #	Criteria
AC-01	Given I hover over 'Desktops' and click 'Mac (1)', Then I am redirected to the Mac products page.
AC-02	Given I hover over 'Laptops & Notebooks' and click 'Windows (0)', Then I am redirected to the Windows products page.
AC-03	Given a sub-category has 0 products (e.g., 'PC (0)'), When I click it, Then the page loads with a 'There are no products to list...' message.

OC-SCAT-US-002 'Show All' Category Links

As a logged-in user, I want to use 'Show All' links in the dropdown to view the full category page so that I can see every product in a category at once.

Acceptance Criteria

AC #	Criteria
AC-01	Given I hover over 'Desktops' and click 'Show All Desktops', Then I am redirected to the full Desktops category page.
AC-02	Given I hover over 'Laptops & Notebooks' and click 'Show All Laptops & Notebooks', Then I am redirected to the full Laptops category page.
AC-03	Given I hover over 'Components' and click 'Show All Components', Then I am redirected to the full Components category page.

OC-SCAT-US-003 Direct Main Category Click

As a logged-in user, I want to click directly on main category names in the navigation bar so that I can quickly access a category without using a dropdown.

Acceptance Criteria

AC #	Criteria
AC-01	Given I click directly on 'Tablets' in the navigation bar, Then I am redirected to the Tablets category page.
AC-02	Given I click directly on 'Software' in the navigation bar, Then I am redirected to the Software category page.

OC-SCAT-US-004 Product Count Accuracy

As a logged-in user, I want the product count shown in brackets in the dropdown to be accurate so that I know how many items are in each sub-category.

Acceptance Criteria

AC #	Criteria
AC-01	Given I hover over a category dropdown, When I observe the number in brackets (e.g., 'Mac (1)'), Then the number matches the actual number of products in that sub-category.

OC-SCAT-US-005 Components Sub-categories List

As a logged-in user, I want to see all sub-categories under 'Components' in the dropdown so that I can navigate directly to the one I need.

Acceptance Criteria

AC #	Criteria
AC-01	Given I hover over 'Components', When the dropdown appears, Then all expected sub-categories (Mice, Monitors, Printers, Scanners, Web Cameras) are displayed.

OC-SCAT-US-006 Category Dropdown – UI & Visual Behaviour

As a logged-in user, I want the category dropdown to appear and disappear smoothly and provide clear visual feedback so that navigation feels intuitive.

Acceptance Criteria

AC #	Criteria
AC-01	Given I hover over 'Desktops', When the dropdown appears, Then it appears smoothly without blocking other page elements.
AC-02	Given I hover over 'Phones & PDAs', When I observe the tab, Then the background or text color changes visually to indicate hover state.
AC-03	Given the dropdown menu is open, When I move the mouse away from the menu, Then the dropdown disappears immediately.

OC-SCAT-US-007 Category Navigation – Usability & Resilience

As a logged-in user, I want category navigation to handle rapid clicks and keyboard interactions without errors so that browsing is smooth and reliable.

Acceptance Criteria

AC #	Criteria
AC-01	Given I click 'Tablets' and quickly click 'Software', When the navigation processes, Then the site loads the most recent click (Software) without crashing.
AC-02	Given I right-click 'Cameras' and select 'Open in new tab', When the new tab loads, Then the Cameras page opens successfully in the new tab.

OC-SCAT-US-008 Navigation Bar – Responsive Design

As a user on a mobile device, I want the navigation bar to adapt to smaller screen sizes so that I can still access all categories comfortably.

Acceptance Criteria

AC #	Criteria
AC-01	Given I resize the browser window to mobile width, When the layout adjusts, Then the navigation bar either wraps or transforms into a mobile burger menu.

Definition of Done

- ✓ All Acceptance Criteria passed
- ✓ No Critical / High defects open
- ✓ Cross-browser compatibility verified (Chrome, Edge)
- ✓ Comparison list limit (4 items) logic validated
- ✓ All sub-category navigation links tested
- ✓ Mobile responsiveness verified
- ✓ Security checks passed (XSS, session handling)
- ✓ Usability and keyboard accessibility verified
